Rural Roads Hierarchy and Service Levels Policy
Rural Roads Hierarchy and Service Levels Policy

Name of Council: District Council of Franklin Harbour
Responsibility: Strategic Management
Version: 2.2
Effective date: 13 February 2019
Last revised date: October 2015
Minutes reference: 104/02/19
Next review date: 13 February 2020
Applicable Legislation: Local Government Act 1999,
Related Policies: DCFH Long Term Financial Plan
DCFH Infrastructure and Asset Management Plan
Related Procedures:

The Local Government Act 1999 and its regulations require that each Council has in place a Long Term Financial Plan (LTFP) covering a period of at least 10 years. This LTFP must be underpinned by an Infrastructure and Asset Management Plan (I&AMP) covering the sustainable management of infrastructure and other major assets of the Council for at least 10 years.

The Rural Roads Hierarchy classifies each road in the district and sets out appropriate minimum service levels that will generally be maintained for each class of road. A 10 year Works Program will be developed to achieve/sustain this standard of service.

This Policy will be reviewed annually to test that the community's needs are being met and priorities adjusted accordingly.

The Road Classification Table below describes each class of road, its typical use and respective service level:
## Rural Roads Hierarchy and Service Levels Policy

<table>
<thead>
<tr>
<th>Road Classification</th>
<th>Road Criteria</th>
<th>Typical uses</th>
<th>Service level</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Sealed Roads, Formed and Sheeted Unsealed Major Freight Routes. Effective drainage established</td>
<td>Major Township roads, Freight (RAV Routes), Links between localities &amp; towns to regional centres, School Bus/Tourist routes.</td>
<td>Should be passable comfortably at speed limit in most weather conditions. Unsealed – 8m wide Graded 2 times/year, re-sheeted as required 15-25 years. Sealed – reseal 15-20 yr intervals. Vegetation clearance envelopes well maintained along alignment.</td>
</tr>
<tr>
<td>2</td>
<td>Minor sealed roads, Secondary Unsealed roads (formed and sheeted) with some drainage established</td>
<td>Sealed -Town Back streets (local traffic only). Unsealed feeders linking farms to freight routes (RAV collectors, not thru routes). School Bus Routes, Service roads for 10 or more rural properties/residences, minor Tourist routes.</td>
<td>Should be passable comfortably at 80% of speed limit in dry conditions. Unsealed- 8m wide, Graded 3 times in 2 years, Sheetng patched as required re-sheet 25-30 years. Vegetation spot cleared as required.</td>
</tr>
<tr>
<td>3</td>
<td>Tertiary unsealed roads, formed and patch sheeted</td>
<td>Service roads for &lt;10 rural properties/residences</td>
<td>6-8m Should be passable comfortably at 50% of speed limit in dry conditions, graded once a year if required. May be 4wd only in wet.</td>
</tr>
<tr>
<td>4</td>
<td>Access Tracks, unformed</td>
